Summary

Experienced frontend developer with 3+ years expertise in React Native, ReactJS, HTML, CSS, JavaScript and State Management. Experienced in crafting user-friendly interfaces, responsive web and mobile applications. Collaborative team player delivering high-quality results on time. Avid learner, staying current with frontend trends.

Work Experience

Blackhawk Network Private Limited, Software Engineer 2023/09 – Present | Bangalore, India

- Contributed to both website and mobile app development, collaborating with cross-functional teams to deliver seamless user experiences.
- Worked simultaneously in two teams, efficiently managing workload and delivering high-quality results, even during teammates' absence.
- Gained expertise in ReactJS for the website, integrating with AEM, and quickly adapted to this new tool to enhance the site's functionality.
- Enhanced the website's performance, ensuring smooth navigation and user experience across devices.
- Collaborated closely with mobile app team, transitioning from web development to mobile development, working with React Native to build and maintain mobile applications.
- Demonstrated adaptability and strong problem-solving skills by balancing web and mobile development tasks while meeting tight deadlines.

Infosys Ltd., System Engineer 2022/06 – 2023/09 | Bangalore, India

- Acquired hands-on experience as a React Native developer, contributing to the development of various dynamic application.
- Mastered UI components and skillsets like JavaScript, HTML, CSS, GraphQL, Rest API along with state management using react-redux.
- Resolved performance optimization challenges, ensuring smooth and responsive user experiences using techniques such as fallback UI, Throttling-debounce etc.
- Introduced usage of advanced debugging and diagnosing tools and extensions like Reactotron, Chrome redux extension.
- Implemented usage of fragments and lazy loading of images for speedy app rendering.
- Implemented Memoization to prevent unnecessary re-renders.
